SUBJECT : RECOMPOSITION OF PSE INDICES

The Philippine Stock Exchange is announcing the results of the regular review of the PSEi and sector indices covering trading activity for the period January to December 2016. The review of the composition of the indices was based on the previously approved criteria used for selecting the members of the indices.

To qualify for the PSEi, companies are required to meet the following during the review period:

1. Free float level of at least 12 percent
2. Must be among the top 25 percent by median daily value per month for at least nine out of 12 months
3. Top 30 based on full market capitalization (MCAP)

To be included in the sector indices, companies must rank among the top 50 percent in terms of median daily value per month in eight out of the 12-month period in review.

To provide stability in the selection of PSEi-member companies, a company shall be inserted in the PSEi if it rises above the 25th position by full MCAP, to replace the company that ranks the lowest. A company shall be deleted in the PSEi if it falls below the 35th position by full MCAP. The vacancy created shall be replaced by the highest ranking company by full MCAP in the Reserve List using the volume-weighted average price for 10 trading days prior to the deletion.

Attached is a list of the companies that will compose the PSEi and sector indices with their corresponding adjusted free float levels, consistent with the Exchange's policy on index management.

All changes shall be effected on March 13, 2017, Monday.

For your information and guidance.
